

Module 4

Session 9 M4SC9

Stretch Challenge: Spotting the red flags

According to recent research from the FCA, there are some interesting overlaps between online dating and online investing attitudes and behaviours.

- 18% of young people are more likely to be influenced by social media when making investment decisions than in their dating life
- 1/3 were able to see through a match's social media hype versus only 1/5 who could see through an investing related post

Whether dating or looking to invest, we need to be on the lookout for red flags that could cause us issues later.

Take some time to research investment scams and frauds and then create a list of questions you can ask yourself to check if this investment is marriage material.
